Subject: Touching base re: Quality Assurance Manager Position

The position is for a Quality Assurance Manager in California.

The company is a privately owned manufacturer of food and beverages. They are looking for someone to lead development and implementation of quality programs. Ideal candidates will have minimum 6 years of strong food experience (cheese and dairy background are preferred). A degree (4 year) in Food Science or a related field would be great.

If you can think of someone you may have worked with in the past that meets the criteria I've described above, would you be so kind as to forward this email to them? Or perhaps ask them to get in touch with me directly and I will connect them with the appropriate hiring manager.

Best regards,
Mike
