**Title**

**Quality Assurance Team Lead**

**Location:**

**Las Vegas, Nevada 89113**

**United States**

**Description**

If you are considered one of the most effective QA Leads in the field and are first and foremost a project lead, able to guide teams of QA professionals through all phases of concurrent projects, and ensure the quality and successful delivery of all project deliverables. This is the exciting role for you. You will be responsible for:

- planning the test effort
- organizing the test teams
- tracking the test effort's progress
- training and developing team members.

**Requirements**

**GAMING INDUSTRY EXPERIENCE IS PREFERRED**

The successful candidate will have expertise in creating comprehensive test plans, and in recognizing and mitigating risk. You will have a thorough understanding of test metrics, and a background in providing technical support in troubleshooting configuration, application data, and user related problems. As such, you will be responsible for department improvement initiatives, metrics gathering and participating in root cause analysis.

You must have the ability to build and maintain effective relationships, an understanding of current business objectives, as well as the ability to anticipate the needs to meet those goals with sound business judgement.

You must bring 5 - 7 years of QA experience to the table, along with proven experience in coaching and developing team members to achieve their goals.
