

Givaudan, located in Silverton, Oregon is a joint venture who develops and produces vegetable and fruit flavors for retail and foodservice customers around the world. We currently have an opening for a Senior Food Scientist in our Product Development Department.

The Senior Food Scientist will be responsible for activities in support of company growth objectives relative to the development of new products, product improvements, customer requests, technology development, cost savings initiatives and efficient utilization of manufacturing. This individual will utilize a variety of resources including pilot plant work and production facilities to transition concepts from bench top to commercialized products. Primary responsibilities will be the application of food science knowledge and skills through innovation and cross functional team leadership in support of projects assigned.

Education/Experience Requirements:

Minimum BS Food Science or equivalent degree, MS Food Science preferred.

Minimum 5 years product development experience. Prior experience in reaction flavors/chemistry is preferred.

Strong leadership skills to lead cross functional team(s) in pursuit of three to five year company growth strategy. Demonstrated project management, strategic thinking, problem solving and supervisory skills.

Good written and oral communication presentation skills.

Givaudan offers a competitive salary and benefits package. Please submit resume and cover letter with salary history to [hr@givaudan-silverton.com](mailto:hr@givaudan-silverton.com).

Givaudan is an equal opportunity employer committed to a sustainable, safe and drug free workplace.
